

OVERVIEW

Designed for light-duty handling and easy maneuverability..

Simple to operate, the TMS 65 trolley is equipped with an electric lifting system that integrates all functions required for safe use: motor, drive belt, electronic control board, and battery. Maintenance and repair access are made easy thanks to the trolley's design. Compact and robust, its aluminum and steel structure makes it both lightweight and durable. It can lift loads of up to 65 kg (143 lb) to a maximum height of 1,940 mm (76.4 in). Front swivel casters ensure smooth and easy movement. An overload limiter guarantees optimal safety.
